HYACINTHS

NOTE: Due to scarcity of stock, Hyacinths will be booked only in conjunction with other bulbs. Hyacinths offer the finest possible combination of scent and color. Early springtime blooming brings out the most beautiful tones of color while other flowers are still dormant. Hyacinths should be planted any time from October 1st to December 1st, in light, rich, well drained soil. Plant bulbs 5 inches deep and about 6 to 8 inches apart, and mulch where ground freezes hard.

RED AND PINK

.....**Lady Derby**—Fine light pink, large bells, early.

.....**La Victoire**—Brilliant carmine red, large spike; finest for forcing and splendid bedder; early.

.....**Marconi**—Deep rosy-pink. Recommended for Easter forcing.

.....**Queen of the Pinks**—Lovely bright rosy pink, late forcer. Good for bedding. Large spikes of fine bells.

WHITE

.....**L'Innocence**—Pure white, loose spike of elegant form, large well-shaped bells, early and excellent for bedding and forcing. The most popular of all white Hyacinths.

LIGHT AND DARK BLUE

.....**Bismarck**—Light skyblue, large truss, excellent early forcer. Fine for pots and pans.

.....**King of the Blues**—The best dark blue; splendid, well-formed spike, short stem; late forcer. Good bedder.

.....**Queen of the Blues**—Fine light blue with beautiful silvery shade, large spike. Extra fine for bedding.

YELLOW

.....**City of Harlem**—Bright golden yellow, large spike, extra fine.

TULIPS

Plant 6 to 8 inches deep in soil; planting may be done from October until early December. Recommended to protect them from severe cold with about 2 inches of peat moss, decayed manure, or even old leaves and grass.

TO OUR CUSTOMERS IN THE SOUTHERN STATES

If you have had trouble growing Tulips successfully, try planting on the north or east side of the house. A little shade seems to be a big help. In order to avoid warm weather after setting out the bulbs, we recommend planting in November or early December. Soak the ground thoroughly in dry weather. Follow the same instructions for Hyacinths and Narcissus, except the latter should be planted in October or early November.

Tulips (Continued)

Fall Bulb Order Notes

Orders from this price list must be placed not later than July 1, 1951. After that date, prices will be somewhat higher and the assortment smaller. We import in carload lots and are able to give you these lower prices only because of your cooperation in placing your orders early. We must have our final orders to our growers in Holland very shortly after July 1st.

The minimum shipment at these prices must be 500 bulbs, in multiples of 50 of a variety and size. Smaller quantities will be invoiced at 10% above these prices due to extra handling.

Hvacinths and Crocus are limited in supply this year. We cannot accept orders for those two kinds of bulbs except in conjunction with other bulbs.

We are prepared to furnish, on request, brightly colored posters for window display.

Terms to those of established credit, 1% discount for payment within 10 days after date of invoice, net 30 days. If you do not have an established credit rating with us, please send your trade references and we will be glad to look them up. Payment in advance will also entitle you to the 1% discount.

CROCUS

NOTE: Due to scarcity of stock, Crocus will be booked only in conjunction with other bulbs. Crocuses have been in cultivation at least three hundred years. They flower at a time when every flower is of value. For outside culture, it is advisable to mix a few naphthalene flakes with the soil where the bulbs have been planted, since mice and squirrels are very fond of crocus bulbs. Plant 2 to 3 inches deep.
